

Anchorage Audiology Clinic Cost Disclosure

Per Alaska SB 105: A health care provider (and health care facility) shall annually compile a list, including a brief description in plain language that an individual with no medical training can understand, of the 10 health care services most commonly performed by the health care facility in the state in the previous calendar year from each of the six sections of Category 1, using current procedural terminology adopted by the American Medical Association and, for each of those services state (1) the procedure code, (2) the undiscounted price, and (3) any facility fees*.

The following is a list of our 10 most common procedures:

CPT Code	Description	Cost
92552	Air Conduction	\$70
92553	Air and Bone Conduction	\$130
92556	Speech Audiometry	\$75
92557	Complete Audiological Evaluation	\$205
92567	Tympanogram	\$55
92550	Acoustic Reflexes	\$90
V5254 / V5258	Hearing Aid, Digital Monaural / Binaural, CIC	\$2,400 - \$3,200 / \$4,800 - \$6,400
V5255 / V5259	Hearing Aid, Digital Monaural / Binaural, ITC	\$2,400 - \$3,200 / \$4,800 - \$6,400
V5256 / V5260	Hearing Aid, Digital Monaural / Binaural, ITE	\$2,400 - \$3,200 / \$4,800 - \$6,400
V5257 / V526	Hearing Aid, Digital Monaural / Binaural, BTE	\$2,400 - \$3,200 / \$4,800 - \$6,400

We are considered **out-of-network** for all insurances other than Medicare and Medicaid, and do not maintain contractual relationships that may reduce the price of our services.

* We do not have any facility fees.
